Venice, Feb. 4.

TH O' we have had some Intervals of fair Weather, the Wet Season continues; which causing Inundations does great Damage to the Country and Inhabitants of the Terra firma. Cardinal Badoaro, Bishop of Bressia, has caus'd publick Prayers and Processions to be made in his Diocess for fair Weather, and suspended the Diversions of the Carnival for 3 Days: And the like has been done at Cremona; the Country adjacent to which City is most of it under Water, occasion'd chiefly by the Intrenchments and Lines dug by the French when they were possess'd of it. The Diversions of the Carnival are continu'd in this City with great Jollity and Splendour. The Count de Castellbarco, Commissary-General of the Emperour in Italy, is return'd to Mantua, after having reinstated the Prince of Massa of the House of Cibo in the Lordships of Massa and Carrara, on his advancing a considerable Sum for Contributions; and receiv'd at Florence large Sums for Contributions of the great Duke of Tuscany.

From the Amsterdam Courant, dated Feb. 16.

Turin, Jan. 25. M. Moter of Genoa, an eminent Merchant, who liv'd here, was found dead in his Counting-House the 18th at Night, and it appearing that his Skull was split by a Blow, 'tis not doubted he was Murder'd. The Governour of this City immediately caus'd all his Papers and Effects to be secur'd and seal'd, in Order to deliver them to the Brother of the decess'd who is sent for from Genoa. The 20th two Officers of the Regiment of Foot of Duperra, were seiz'd and put under Confinement, on suspicion that they were concern'd in the Murther of the said Merchant; and because a Captain in the same Regiment went away Post at the Time those Officers were seiz'd, several Couriers are sent after him to fetch him back. The 22d a Detachment of our Garrison brought in hither, a good Number of Oxen, Cows, Calves, Mules, and Horses, which they had taken from Fler, Lonbaidor, Lonbalegno, and Montenaro, situate within a League and a Half of this City: This Military Execution was occasion'd by the Refusal of the Inhabitants to pay the Taxes demanded of them, or to buy off Winter-Quarters, alledging that they acknowledg'd no Sovereign but the Pope. 'Tis true those Districts do belong to the Church; but seeing the Province of Romagna in the Ecclesiastical State, is not exempted from furnishing Winter-Quarters to the Imperialists, the Carle we have mention'd will certainly be sold, unless the foresaid Inhabitants redeem them by paying what is demanded of them. The 23d at Night a Regiment of Grenadiers of our Garrison, march'd out for Lucern, to reinforce the Vandois and the regulal Troops of his Royal Highness that are already in the Valleys. To Day were sent from hence several Waggons with maim'd Soldiers for Fort Edmont, where they are to be taken Care of: But such of them as desire to go to their own Homes, are to have a Gratuity of 100 Piemontese Livres from our Duke. At the Desire of the British Minister, 10 Pieces of Cannon, carrying Balls of 32 pound, are getting ready in our Arsenal to be sent to Genoa, there to be put on board the Fleet of the Allies: They will be convey'd by Water down the Po to Valenza, and thence by the Way of Alexandria to Genoa by Land. Peasants of this Country come in apace to lift themselves into the Service of his Royal Highness; and 'tis reckon'd that since the last Campaign 8 or 9000 have lifted. Cloathing for them is providing here; and his Royal Highness omits no Preparation for an early Campaign.

From the Leid. and Bruff. Gazette, dated Feb. 17.

Warsaw, Jan. 27. Several Senators of King Stanislaus's Party, are so dissatisfy'd with his Disposal of the principal Offices and Employments, that 'tis not doubted they will abandon him the first Opportunity that offers, provided the great General of the Army of the Crown keep firm in the adverse Party. The Bishop of Culm, is sent to Sterin, with a Select Commission from King Stanislaus. There lately pass'd hot Words between that Prelate and the Vice-Chancellor of the Kingdom, who said in the Presence of King Stanislaus, that all the Bishops ought to be excluded from it, to the End they might have nothing to mind but their Church-Affairs: But they have since been reconcil'd. The Swedes give out, that the Czar of Muscovy makes great Offers to obtain Peace; but that his Swedish Majesty will not hearken to them till he has enter'd Muscovy with his Army. On the other Side, the Muscovites report, that the Czar has order'd all his Sireluses to draw towards his Frontiers, to joyn his Army if Occasion require and oppose the Invasion threaten'd by the Swedes. The ancient perpetual Alliance between his Czarish Majesty and the King of Denmark has been very lately renew'd; 'tis not known whether any secret Articles are added to it. 'Tis advis'd from Lemberg, that the great General of the Army, of the Crown of Poland having Advice that the Swedes were advancing towards the Bug and the Narew, sent Order to the under-General to retire with the Crown-Army towards Land-Landsron in Russia; and resolv'd himself to keep with the Right Wing near to Jaroslau, while the under-General with the Left Wing observes the Motions of the Swedes. The great General had dispatch'd an Officer to Prince Lubomirsky, to concert with him by what Route his Detachment might joyn the Crown-Army; that Prince having sent him Word that he was on the March to joyn the Confederates.

From the Leiden Gazette, dated Feb. 17.

Dantzick, Feb. 5. Our Magistrates have concluded a Treaty with the King of France, by which they have oblig'd themselves to pay him 40000 Crowns at 4 several Terms: And his Majesty has engag'd on his Part to give Order, that his Ships of War and Privateers may not visit our Merchant-ships wherever they meet them: 'Tis said likewise, that for the future our Ships are to be exempted paying the Duty of Tunnage in the Ports of France. On Monday last 400 Swedes came into our Territory, and their commanding Officer having sent for the Bailiffs of several Villages, demanded 6 Crowns a House for Contributions during 6 Months, and subsistence for 4 Regiments of Swedes that were following him. The King of Sweden with his Army pass'd the Narew the 22d of last Month, and advanc'd near to Tykoczin. At Ostrolenka the Walachians presented to him some Muscovite Commissaries and 20 Horse of their Guard, whom they had taken Prisoners in an Excursion: On that Occasion they made a Booty of 10000 Crowns. The 24th his Swedish Majesty advanc'd to Korinow within 4 Miles of Tykoczin. In his March, he detach'd General Reinchild with 10000 Men to succour Prince Wiesenowiski and General Lewenhaupt in Samogitia, where they are distress'd by the Muscovites. His said Majesty design'd to proceed from Korinow towards Grodno. The Muscovites retire as he advances.

From the Brussels Gazette, dated Feb. 24.

Lissa, Feb. 8. We are inform'd by Letters from Lithuania, that the Swedish Army is far advanc'd into that Dutchy; that King Stanislaus was in the Neighbourhood of Tykoczin; and that the King of Sweden having march'd with 10 or 12 Regiments to attack a Body of Muscovites posted in a certain Passage, forc'd and defeated them. 'Tis confirm'd that

that the Czar came back from Moscow to Minsk the 20th of last Month, and went thence the 21st for Denelow, a little Town belonging to the House of Radzivil in the Palatinate of Novogrodeck, where Prince Menzikoff has his Head-Quarters, and where the Muscovites seem determin'd to draw together all their Forces and venture a general Engagement with the Swedes. Quarters are assign'd in the Polish Prussia, and in the Territory of Dantzick, to 6 Regiments of Cavalry half ruin'd by Desertion and tiring their Horses to Death by hard Marches, which the King of Sweden left behind on the Vistula under General Craffau to be recruited: For subsisting these Troops, every House in that part of the Country is tax'd at 6 Crowns, and the City of Dantzick at 12000 Crowns for 3 Months Contributions.

From the Amsterdam Courant, dated Feb. 21.

Breslau, Feb. 8. The Letters from Poland tell us, that the Archbishop of Lemberg, who Crown'd King Stanislaus, and was afterwards taken Prisoner by the Muscovites, is exchang'd for Prince Dolko-neck. The Courts of the King of Sweden and King Stanislaus expected with great Impatience to learn whether M. Tarlo, who was sent to persuade the great General of the Crown-Army to come into their Interest, had succeeded. We have Advice from good Hands, that the Ministry of France use great Endeavours to bring about a Peace between the King of Sweden and the Czar of Muscovy.
